According to ANSI and MIA standards, depending on the type and size of tile, it is recommended to have at least a 1/8" wide grout joint for floor tiles in order to be able to fill the grout joint full and never less than 1/16" wide. Please refer to TCNA guidelines for more on grout recommendations.

Specialty Product Disclaimer:

This is a finely decorative Specialty Product series with metallic or distinctive glazing finishes. These tiles are subject to surface damage when exposed to physical or chemical forces.

Special Cleaning Instructions:

These tiles have a special decorative finish with precious metals or distinctive glazing, and therefore should be cleaned only with a cloth soaked in water and neutral detergent. Do not use acidic or abrasive cleaning products or sponges that may damage the tile surface.
